

# Don't get caught with your limbs down

**MSNA has received many complaints this year about low limbs over sidewalks and streets from neighbors as well as the postal service. It is the responsibility of each homeowner to keep street trees trimmed on their property.**

**MSNA in conjunction with Town Branch Tree Experts, Inc., would like to offer our residents an opportunity to be in compliance with the city street tree ordinance. LFUCG ordinance requires street trees be pruned to a height of 7' over sidewalks and 12' over streets. (<http://tinyurl.com/LFUCGtrees>). Failure to comply will result in \$75 fine per tree from the city. Contact Town Branch Tree Experts, Inc at [859-967-6907](tel:859-967-6907) to take advantage of this special promotion!**

Street tree clearance pruning will be performed at approved residences in the Masterson Station Neighborhood Association for a cost of \$20 per tree. A minimum of 25 residences are required per visit to perform these services at the discounted rate. Trees approved for this service will be pruned to comply with the LFUCG Street Tree Ordinance, to provide clearance space to a height of 12 feet over streets and 7 feet over sidewalks.

- Property owners in the Masterson Station Neighborhood Association are advised to use promotional code [MSNA-STREETTREES](#).

Additional tree care services contracted directly between individual Masterson Station property owners and Town Branch Tree Experts, Inc. will qualify for a discount of 25%. A minimum of four cumulative hours of scheduled work, for one or multiple properties, per visit is required. This will be tracked, coordinated and scheduled by Town Branch Tree Experts, Inc. This discount will apply to pruning, removal, planting, root collar excavations, mulching and stump grinding services.

- Property owners in the Masterson Station Neighborhood Association are advised to use promotional code [MSNA-25%](#) for these work requests.

**We hope you will take advantage of this opportunity,**

**MSNA Board of Directors**
